CACHE COUNTY IS POLITICAL MECCA

Preachers and Politicians Galore Are Visiting Logan and Vicinity.

Special to The Tribune.
LOGAN, Aug. 12.—Political and peaceful visitors have been abundant in Logan the past two days. Sunday afternoon Samuel Newhouse brought up in his machine Judge King and Editor Sjodahl and his family. In the evening the judge and the editor talked to the Logans at great length on the glories of international peace, the judge remaining indefinitely that he had opposed the expansion of the navy when in Congress. He also condemned the poems of Kipling and Emerson which exalt the barbarous practice of war. His remarks were distinguished by much of the best and flowery language. At the end of the meeting a branch of the American Peace society was formed at Logan, with the following officers: President, J. A. Hendrickson; vice-president, George H. Clapp; directors, H. E. Hatch, H. E. Hayball and Dr. Thomas. The visitors were entertained on Sunday and Monday by J. A. Hendrickson, who took them to visit the Agricultural college and the Telluride powerhouse in the Logan canyon. Mr. Newhouse expressed his delight with the beauty of Logan, its possibilities as a summer resort, and suggested that he might build the hotel that Logan is so bitterly in need of. The entire party returned to Salt Lake by train on Tuesday morning, as the roads were too muddy for the machine.

On Monday, David Mattson, clerk of Weber county, who has been in town (Tuesday) United States Marshal William Spry and Judge Booth are in town to survey this corner of the political arena. On Monday J. S. Baker, formerly of Menard, did not at Logan. He was one of the first graduates in engineering from the Agricultural college, and after being County Surveyor of Cache for two years he was professor of State Agricultural college of Montana. He was then State Engineer for Montana for a couple of years and at the time of his death was the most prominent irrigation engineer in the State.

WILL ENLARGE S. P. SHOPS AT OGDEN

Steady Increase of Business Has Made the Extension Absolutely Necessary.

Special to The Tribune.
OGDEN, Aug. 12.—In line with the reports which have been made regarding contemplated improvements to be begun throughout the Harriman system, which heralded the recent visit of E. H. Harriman to the West, it was announced Wednesday that the Southern Pacific shops in this city will be enlarged to accommodate a larger force of workmen by the building of a second story to the present buildings.

When the two machine shops were built the plans as originally drawn provided for a second floor to each. The steady increase of business by the railroad has necessitated the shops with such a conglomeration of work that more room is imperative.

A number of men will be put to work under Engineer Campbell at once building the galleries to the present shops.

It is understood that the new building will be erected on the corner of Third and Twenty-sixth street by the Harriman-Kennedy estate of Highland, Wis. The contract has been awarded to Mattson Bros., a local firm, who have been instructed to begin work at once. The building will be modern in every respect, the plans providing for thirty-six rooms.

PLANS ON FOOT TO BUILD REAL HOSPITAL

One was to solicit subscriptions from a dozen or more persons for \$1000 each and then raise the additional sum needed by bonding the institution. The other plan which is being considered is the organization of a stock company with so much capital stock and issue shares valued at a certain amount to the stockholders.

Those who are leading the movement have decided to give out nothing relative to the plan until they have been settled upon definitely, but assurances are made that before many months elapse a new and modern hospital building will be erected which will be a credit to the city.

GREEK TELLS STORY OF HIGH CLASS GRAFT

Special to The Tribune.
OGDEN, Aug. 12.—If the story of Tom Bakos, a Greek interpreter of this city, is to be believed, one of his fellow countrymen, in the employ of the Harriman roads as a foreman at the ice-house, is guilty of tactics which would make a real gentle grafter green-eyed with jealousy.

The foreman's name is given as George Alois Palos. A couple of weeks ago Bakos, with other of his countrymen, applied for work. Palos, he says, offered them each a job lasting for six months, with the understanding that he was to be paid \$20 by each of the men before they were allowed to go to work.

Bakos says that the money was turned over to the foreman and they went to work at the Union Pacific ice-house. After working about twenty days, the men were fired and an additional force of twenty men was hired on the same conditions.

The duped Greeks reported the matter to the police Wednesday, and the matter has been taken up by the railroad authorities for investigation.
